
Quality Statement

Community Workforce Solutions, Inc. Quality Statement

The quality of the products we process for you is of tremendous importance to us.

When it comes to our production processes, only safety is higher in priority.

We take pride in the work we do and need the work you provide to help us fulfill our mission.

We know you have to be able to count on the quality of what we produce for you.

We also know if we don't meet your expectations, you probably won't be back.

So, with the above in mind...

We place a 100% Line Inspector on every project, and have a Roving QC Inspector making random checks on each job we have in-house. In addition, the Line Supervisor is responsible for checking a certain percentage of the finished product.

We have processes in place to build quality into your project, not just to fix rejects.

The Bottom Line is...

We understand the importance of quality, how to attain it, and strive to meet or exceed all standards specified by our customers. Your standards are our standards, we adapt our processes to meet your specifications.

The quality of **our work is guaranteed** and our production team takes pride in providing superior customer service every step of way.
